

Special Issue

Redesign Processes in the Age of the Fourth Industrial Revolution

Message from the Guest Editor

This Special Issue, which is supported by the journal's Editorial Board, aims to highlight new comprehensive transdisciplinary models for the design of innovative processes in a range of Science and Technology fields. This holistic approach is reshaping current research and production strategies, which are too often confined to traditional, linear thought patterns. The merging of academic and industrial experience with economic and environmental knowledge will help laboratories, industries, and businesses achieve sustainable growth. We are expecting papers with the power to disrupt and innovate, which exploit combinations of technologies to shape our future processes.

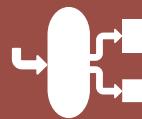

Guest Editor

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
