

## Special Issue

# Gasification Processing of Biomass and Refuse Derived Fuel

### Message from the Guest Editors

This Special Issue focused on the Gasification of Biomass and Refuse-Derived Fuel (RDF). I encourage you to submit articles examining methods of processing, technoeconomic analysis, benchtop and pilot scale testing, and any other topics that will help to inform readers about new ways to utilize biomass and/or RDF to produce electricity or liquid fuels through thermal gasification. This is a topic with significant interest, and a focused issue will help to bring more readers to all of the papers included.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
