

## Special Issue

# Biomedical Applications of Genome-Scale Metabolic Network Models

### Message from the Guest Editor

This Special Issue on “Biomedical Applications of Genome-Scale Metabolic Network Models” aims to gather outstanding research and literature reviews that cover this huge field. Topics include but are not limited to the following:

- Network models that enable drug repurposing
- Metabolic networks to determine the molecular mechanisms of disease
- Identification of novel drug targets through network analysis
- New bioinformatic approaches to study genome-scale metabolic networks
- Evaluation of the genotype-phenotype relationship in different diseases through computer modeling
- Tools for prediction of the outcome of certain treatments using network modeling
- Metabolic network reconstruction for a new organism with biomedical applications

---

### Guest Editor

Prof. Dr. Carlos Leon

Biomedical Engineering School, Carlos III University, Avda Universidad 30, Leganes, 28911 Madrid, Spain

---

### Deadline for manuscript submissions

closed (20 June 2021)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
