

## Special Issue

# Advances in Green Organic Synthesis

### Message from the Guest Editors

The Special Issue on “Advances in Green Organic Synthesis” will address the latest research in environmentally and human-friendly chemical technology in accordance with the defined and well-established principles of green chemistry—that is, preventing wastage, maximizing atom economy, designing less-hazardous chemical syntheses, designing safer chemicals and products, using safer solvents/reaction conditions, increasing energy efficiency, using renewable feedstocks, avoiding chemical derivatives, using catalysts and non-stoichiometric reagents, designing chemicals and products that degrade after use, analyzing in real time to prevent pollution, and minimizing the potential for accidents. Therefore, the objective of this Special Issue is to showcase the diversity and advances in research that contributes to developing effective green chemistry technologies, at industrial or laboratory scale.

---

### Guest Editors

Dr. Mariusz Mojzycz

Dr. Katarzyna Kotwica-Mojzycz

Dr. An-Chi Huang

Dr. Stefano Marchesi

---

### Deadline for manuscript submissions

closed (15 December 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
