

## Special Issue

# Green Production of Carbonaceous Materials from Biomass and Waste Plastics

### Message from the Guest Editor

The scope of this Special Issue is to offer a platform where new developments in carbonaceous materials from biomass and waste plastics will be published. The focus of these developments may relate the application of advanced processing techniques to synthesize, manipulate, and functionalize the carbonaceous materials and detailed chemical and functional characterization of the raw materials and composites; and optimization of the properties of the materials and composites for potential use in high-tech applications. I kindly invite any researcher that wants to contribute in this area to submit their work in this Special Issue on "Green production of carbonaceous materials from biomass and waste plastics".

### Guest Editor

Dr. Sharif Zein

School of Engineering, Faculty of Science and Engineering, University of Hull, Kingston Upon Hull HU6 7RX, UK

### Deadline for manuscript submissions

closed (15 February 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
