Alternative Solvents, Biomass, and Catalysis as Pivotal Tools in Green Chemistry

Message from the Guest Editors

This Special Issue on “Alternative Solvents, Biomass, and Catalysis as Pivotal Tools in Green Chemistry” aims to cover the recent advances in the field of green chemistry, focusing on the use of (a) alternative solvents (ionic liquids, deep eutectic solvents); (b) renewable biomass feedstocks (lignocellulosic, chitinous, waste residues); and (c) catalysis (heterogeneous and homogeneous), in conjunction or individually, and thereby provide interdisciplinary, comprehensive, and insightful research in the area.

We welcome all kinds of high-standard articles (research and review papers) from academia, industries, and government agencies. We do hope that this Special Issue will draw together contributors from different fields to stimulate the exchange of ideas and spread knowledge on the current capabilities and the new possibilities for a sustainable future.

Guest Editors

Dr. Ezinne C. Achinivu

Dr. Mood Mohan

Dr. Hemant Choudhary

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
