Resource Recovery and Harmless Treatment Processes for Industrial Organic Pollutants

Message from the Guest Editors

This Special Issue on “Resource Recovery and Harmless Treatment Processes for Industrial Organic Pollutants” seeks high-quality works focusing on the latest novel advances in recovery and harmless treatment technologies for industrial organic pollutants. Topics include, but are not limited to:

- Industrial organic pollutants analysis;
- Functional materials (membrane, adsorbents, absorbents, oxidants, catalysts, etc.) and performance application;
- Waste organics recovery from solution;
- Solid organic wastes recovery and harmless conversion;
- Industrial VOC recovery and harmless conversion;
- Recovery process industrial integration, application and modeling.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
