Special Issue

Advances in Integrated Geothermal Energy Systems

Message from the Guest Editors

This Special Issue on "Advances in Integrated Geothermal Energy Systems" aims to curate novel advances in the integration of geothermal energy sources. Topics of interest include, but are not limited to:

- Methodologies, workflows and concepts on the inclusion of deep and shallow geothermal resources in general;
- Case studies for developing and evaluating concepts of integration of shallow and deep geothermal applications under real-life conditions;
- Field laboratories and in situ experiments investigating detailed technical problems;
- Feasibility studies or best practices for underground thermal energy storage;
- Existing demonstrations scientifically monitored and evaluated;

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
