Eco-Friendly Materials in Emergent Contaminants Removal Processes

Message from the Guest Editors

This Special Issue on “Eco-Friendly Materials in Emergent Contaminants Removal Processes” aims to offer an overview of novel materials, principally derived from food or agricultural wastes, able not only to remove contaminants but also to recover and regenerate for further use, according to the principles of green chemistry, circular economy, and sustainability.

Keywords

- Emergent contaminants
- Adsorption processes
- Adsorption materials
- Agricultural wastes
- Food wastes
- Eco-Friendly Materials
- Recycle
- Green Chemistry
- Circular economy
- Sustainability

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
