Metabolic Analysis in Food Processing

Message from the Guest Editors

This Special Issue on “Metabolic Analysis in Food Processing” focuses on (i) metabolic profiling of phytochemicals from food processing, (ii) bioavailability and metabolism of phytochemicals, and (iii) chemical alterations of food components during processing. Thus, we welcome research/review/perspective articles on (but not limited to) the following topics:

- secondary metabolites
- metabolome
- chemical characterization
- bio-guided processing
- chemical alterations of food components during processing

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
