

Special Issue

Multi-Objective Optimization of Industrial Processes

Message from the Guest Editor

This Special Issue is focused on all the multi-objective optimization techniques applied to industrial processes. The topics include, but are not limited to:

- Water networks optimization;
- Energy production, storage and distribution systems;
- Process intensification;
- Supply chain optimization;
- Product development;
- Life cycle assessment of industrial processes;
- Industrial processes security evaluation and optimization;
- Social impact of industrial processes.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy
