

Special Issue

Novel Bioreactor for Plant Cell, Tissue and Organ Culture

Message from the Guest Editor

This Special Issue on “Bioreactor for Plant Cell, Tissue and Organ Culture” aims to identify the problems related to large-scale plant micropropagation and phytochemical production in bioreactor systems, and to summarize the most recent developments in bioreactor design, process optimization and scale up. The topics include, but are not limited to:

- Bioreactor design for plant cell, tissue and organ culture;
- Process optimization and control in bioreactor systems;
- Principles and case studies for scaling up bioreactor systems;

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
