Special Issue

Edible and Non-edible Oil Extraction Processes, Modeling and Optimization

Message from the Guest Editors

This Special Issue entitled "Edible and Non-Edible Oil Extraction Processes, Modeling and Optimization" aims to cover the recent developments and historical perspectives in methods of oil extraction. Topics include but are not limited to:

- Supercritical fluid extraction;
- Solid-phase extraction;
- Ultrasound assisted extraction:
- Liquid-liquid extraction;
- Microwave-assisted solvent extraction:
- Mechanical screw pressing;
- Uniaxial compression process;
- Extraction, characterization and functional properties.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
