Innovations and New Processes in the Olive Oil Industry

Message from the Guest Editors

This Special Issue, “Innovations and New Processes in the Olive Oil Industry”, aims to collect high-quality research studies addressing challenges faced in the olive oil industry and related industries. Comprehensive overviews and in-depth technical research papers addressing recent progress in olive oil, pomace oil, and table olive production and the management of the different olive oil industry wastes will be published. Studies of advanced techniques and methods for bioenergy and high-value-added product production within the olive oil industry are also welcome. Research involving experimental studies, recent developments, the current state of the art, and emerging technologies in this industry are highly encouraged.
