

# Special Issue

## Optimization Algorithms Applied to Sustainable Production Processes

### Message from the Guest Editors

This Special Issue on “Optimization Algorithms Applied to Sustainable Production Processes” aims to collect high-quality research studies addressing this problem. Topics include but are not limited to the following:

- Processes for minimizing GHG emissions.
- Renewable energy system design;
- Applying optimization algorithms to sustainable production processes (chemical engineering/biological engineering);
- Multicriteria decision making models in production processes (ANP/AHP, TOPSIS, DEA model, etc.)
- Sustainable supply chain management.
- Applied operation research to production and services management.
- Sustainability in logistics and supply chains.
- Optimization of Logistics & SCM Systems
- Inventory Management
- Decision Support Systems for Logistics & SCM

---

### Guest Editors

Prof. Dr. Chia-Nan Wang

Department of Industrial Engineering and Management, National Kaohsiung University of Science and Technology, Kaohsiung 80778, Taiwan

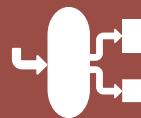

Dr. Nguyen Van Thanh

Department of Logistics and Supply Chain Management, Faculty of Commerce, Van Lang University, Ho Chi Minh City 72320, Vietnam

---

### Deadline for manuscript submissions

closed (31 January 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
