

## Special Issue

# Process Optimization and Control

### Message from the Guest Editors

This Special Issue solicits high-quality papers from three key academic conferences held in China annually in this area, including the Chinese Process System Engineering Conference, the Chinese Process Control Conference, and the Chinese Intelligent Control and Automatic Instrument Conference. This Special Issue on “Process Optimization and Control” aims to curate novel advances in the development and application of optimization and control to address longstanding challenges in industrial process. Topics include but are not limited to the following:

- Industrial process management and decision systems;
- Integrated decision-making and control systems;
- Advanced control optimization technology;
- Artificial intelligence-driven optimization and control technology;
- Industrial big data and cloud computing;
- Safety monitoring and faulty detection systems;
- Industrial modeling and simulation systems;
- Process instruments and smart devices;
- Smart manufacturing systems.

---

### Guest Editors

Prof. Dr. Xi Chen

Prof. Dr. Wenli Du

Assoc. Prof. Dr. Antonios Armaou

Assoc. Prof. Dr. Xiang Li

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
