

## Special Issue

# Soil Heavy Metal Pollution and Control

### Message from the Guest Editor

This Special Issue titled “Soil Heavy Metal Pollution and Control” seeks high-quality works focusing on the latest research-based studies on heavy metals, and novel strategies to reduce their risk in the soil–plant system. Relevant researchers throughout the world are invited to contribute their papers to this Special Issue. Topics include, but are not limited to, the following:

- Transport and fate of heavy metals in the soil–plant system;
- Physico-chemical method-based remediation strategies for soil heavy metal pollution and their application;
- Bioremediation technologies for soil heavy metal pollution and their application;
- Risk assessment (models and methods) of heavy metal-polluted soil;
- Agronomic measures for the removal of heavy metals.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
