

Special Issue

Green Sustainable Chemical Processes

Message from the Guest Editors

The present Special Issue will include cutting-edge advances in green sustainable chemical processes. Research in this field is directed towards the development of methods and new chemical engineering routes that can be integrated into industrial processing for safer, more flexible, economic and ecological production processes in the context of green and sustainable chemical engineering. We invite authors to submit original research and review articles that promote the design and efficient use of environmentally benign chemical processes. We are particularly interested in articles that explore the development of processes that use renewable resources and green solvents, alternative sources of energy, process intensification and innovative environmental technologies for water treatment and pollution control.

Guest Editors

Prof. Dr. Francisco José Hernández Fernández
Chemical Engineering Department, Faculty of Chemistry, Campus de Espinardo sn, 30071 Murcia, Spain

Prof. Dr. Antonia Pérez de los Ríos
Department of Chemical Engineering, University of Murcia, Campus de Espinardo, 30071 Murcia, Spain

Deadline for manuscript submissions

closed (31 October 2020)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
