Advanced Technology of Waste Treatment

Message from the Guest Editors

This Special Issue on “Advanced Technology of Waste Treatment” will collect high-quality research studies addressing challenges on the broad area of chemical, biological, and physical treatment of wastes. Topics include but are not limited to the following:

- Mechanical processing of municipal solid wastes (including separately collected and residual wastes as well as wastes from landfill mining projects)
- Mechanical processing of industrial and mining wastes
- Biological treatment of organic wastes
- Thermal treatment of municipal solid wastes
- Thermal conditioning of industrial wastes and by-products
- Physico-chemical treatment of hazardous wastes

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
