

Special Issue

Converting Plastic Waste into Useful Products

Message from the Guest Editor

This Special Issue will concentrate on highlighting timely research studies aiming to reuse and repurpose these plastic wastes. Topics include but are not limited to:

- Chemical recycling of plastic wastes;
- Role of catalysts in chemical recycling;
- Impact of pollutants on chemical recycling of plastics;
- Physical, thermochemical, chemical, or electrochemical methods as the support of chemical recycling process.
- Techno-economic and lifecycle analyses of chemical recycling

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
