

Special Issue

Digital Technologies, Materials and Telemedicine in Dentistry

Message from the Guest Editor

The aim of this Special Issue is to provide evidence-based data on innovative advances and knowledge in diagnostic and therapeutic technologies in the orofacial field. Studies that take innovative approaches or provide original information are of higher priority. Papers discussing prosthesis and dental materials, temporomandibular disorders, and rehabilitation procedures to manage craniofacial defects and malformations are encouraged, as well as those addressing digital technologies, and digital and telemedicine applications. Keywords

- prosthesis
- technologies
- materials
- 3D printing
- temporomandibular disorders
- oral health
- dentistry
- dental materials
- biomaterials
- dental imaging
- digital dentistry
- artificial intelligence
- new technologies
- personalized medicine

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Marco Cicciu
Department of Biomedical and Surgical and Biomedical Sciences,
Catania University, 95123 Catania, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Biomaterials) / CiteScore - Q1 (Oral Surgery)
