Special Issue

Advancements in Adhesion Techniques and Materials in Prosthodontics

Message from the Guest Editors

This Special Issue will delve into the latest innovations in adhesive dentistry, exploring cutting-edge materials, novel bonding methods and their clinical applications in prosthodontics. We invite authors to contribute original research articles, reviews and case studies that examine the development and performance of new adhesive systems, and their impact on the longevity and esthetics of dental restorations. By sharing your expertise and findings, you can help shape the future of prosthodontics and contribute to the collective knowledge that drives this dynamic theme forward. Keywords

- 3D-printed adhesive dentistry
- bonding
- CAD-CAM
- ceramics
- dental materials
- resin composite materials
- resin ce-ment

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Marco Cicciu

Department of Biomedical and Surgical and Biomedical Sciences, Catania University, 95123 Catania, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Biomaterials) / CiteScore - Q1 (Oral Surgery)
