

Special Issue

Application of Modern Psychometric Techniques in Psychology

Message from the Guest Editor

The goal of this Special Issue of *Psych* is to promote and illustrate the applications of modern psychometrics techniques in quantifying, modeling, and predicting psychological constructs. We welcome authors to submit their manuscripts on (but not limited to) the following themes:

- Applying modern psychometric techniques to analyze psychological data;
- Validating instruments using modern psychometric techniques;
- Adopting modern psychometric techniques to (re)examine existing psychological theories;
- Comparing the differences between traditional and modern techniques in data analysis;
- Providing new models or methods suitable for specific psychological scenarios.

Guest Editor

Dr. Kuan-Yu Jin
