

## Special Issue

# Exclusive Feature Papers of *Quantum Reports* in 2024– 2025

### Message from the Guest Editor

We are pleased to announce the new Special Issue “Exclusive Feature Papers of *Quantum Reports* in 2024–2025”, a collection of significant high-quality papers (original research articles or comprehensive review papers) published in an open access format by editorial board members or leading scholars invited by the editorial board and guest editors. This Special Issue aims to discuss emerging knowledge and new developments on the frontiers in the field of quantum science research via the publication of selected works that will, hopefully, greatly contribute to society. We hope that this Special Issue will serve as the best forum for disseminating outstanding research results and sharing innovative ideas in the field.

### Guest Editor

Prof. Dr. Lajos Diósi

Wigner Research Centre for Physics, P.O. Box 49, 114, 1525 Budapest, Hungary

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

We get more and more evidence that quantum theory is the correct description of nature. It was born a century ago by explaining a few paradoxical results that could not be understood in the framework of classical physics. Today, quantum physics leads technological revolution in metrology, communication, computation, and the design of novel materials. Still it needs more solid foundations, and we need to develop a deeper understanding of how it can be used for new applications.

*Quantum Reports* is an online, open-access journal providing an advanced forum for clarifying foundations of quantum theory and developing its applications in all fields of physics and technology. *Quantum Reports* is inviting innovative and insightful contributions from the growing community of researchers of quantum science.

---

### Editor-in-Chief

Prof. Dr. Lev Vaidman

Raymond and Beverly Sackler School of Physics and Astronomy, Tel Aviv University, Tel Aviv 69978, Israel

### Author Benefits

#### High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

#### Journal Rank:

CiteScore - Q2 (Physics and Astronomy (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
