

Special Issue

Hydrogen Production and Storage, 3rd Edition

Message from the Guest Editors

The aim of this proposed Special Issue is to collect worldwide contributions from experts in the fields of hydrogen production and storage, and especially the chemical reactions involved in these fields. The following areas/sections will be covered by the call for original papers:

- Alternative hydrogen production (electrolysis, solar-driven water splitting, bio-hydrogen, bio-gasification, hydrogen from biomass, etc.);
- Hydrogen storage in solid materials;
- Hydrogen storage in organic liquid carriers (LOHC)—hydrogenation/dehydrogenation cycle;
- Power-to-hydrogen processes.

Guest Editors

Dr. Valérie Meille

Univ Lyon, Université Claude Bernard Lyon 1, CNRS, IRCELYON, F-69626, 69100 Villeurbanne, France

Dr. Sibudjing Kawi

Department of Chemical and Biomolecular Engineering, National University of Singapore, Singapore 119077, Singapore

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Dmitry Yu. Murzin
Faculty of Science and Engineering, Åbo Akademi University, 20500
Turku, Finland

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2025).
