

Special Issue

Feature Papers in Reactions in 2025

Message from the Guest Editor

This Special Issue, entitled “Feature Papers in *Reactions* in 2025”, is open to receiving high-quality papers in open access format upon invitation from Editorial Board Members or the Editorial Office and the Editor-in-Chief. Both original research articles and comprehensive review papers are welcome. Contributions to this Special Issue will be published in open access format after peer review. The potential topics include, but are not limited to, the following:

- Reaction mechanisms;
- Reaction kinetics;
- Complex reactions, including catalytic ones;
- Single-atom catalysis;
- Reaction and reactor engineering (bio-, electro-, photo-, environmental, and chemical);
- Micro-reactors and micro-reaction engineering;
- Hydrogen production reactions;
- Photocatalysis.

Guest Editor

Prof. Dr. Dmitry Yu. Murzin
Faculty of Science and Engineering, Åbo Akademi University, 20500
Turku, Finland

Deadline for manuscript submissions

closed (31 December 2025)

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.8 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
