Message from the Guest Editor

Dear Colleagues,

As guest editor, I would like to welcome you to the Special Issue the journal RECYCLING will publish with selected papers of the **4th International Conference on Green Chemistry and Sustainable Engineering (GREENCHEM-18)** that was held at the University Complutense of Madrid from July 23th to 25th 2018.

Our aim is to encourage scientists to publish experimental and theoretical research relating to innovation processes, tools and methodologies relating to resource recycling. We can highlight the following topics: Materials recycling, Chemicals recycling, Waste recycling, Waste processing technologies, Wastewater treatments, and Product (eco) design and recycling.

Prof. Joaquín R. Dominguez

Guest Editor
