Transitions of Islam and Democracy: Thinking Political Theology

Message from the Guest Editor

We are honored to invite you to submit your research concerning religious issues and the transition between religion and democracy. Will Islam be able to coexist with democratic values? Will Islam be able to offer democratic values that do not exist in Western democracy? Moreover, of particular interest would be groundbreaking studies of religious writings and political-religious essays with the power to change political reality both in the country of origin and in different countries, but similar in terms of the corresponding religious values.
