

Special Issue

Heidegger and Jewish Thought: In Search of the Same Difference

Message from the Guest Editor

Of late there have been a number of scholars who have begun to explore Heidegger and Jewish philosophy and thought. Beyond the obvious problematic history of Heidegger's embrace of Nazi ideology and his explicit anti-semitic comments, there is value for examining the influence of and affinities between Heideggerian thought and Jewish philosophy and theology. The special issue seeks to encourage further research in this area framed by the assumption that the comparative methodology will expose the sameness in the difference and the difference in the sameness.
