

Special Issue

Spiritual Intelligence: Problems, Challenges and Solutions

Message from the Guest Editors

This Special Issue aims to gather knowledge about defining spiritual intelligence, and to discover its purposes, mechanisms of function, and consequences of initiated actions. We are looking for methods of assessment of these phenomena and processes, and the application of the obtained results to practical areas of human life: psychotherapy, improvement of well-being, and quality of life. We are also interested in phenomena related to spiritual intelligence and those that can be influenced by it.

About the Journal

Message from the Editorial Board

Fresh developments in the disciplines that consistently make significant contributions to our understanding of religious personality, authority, devotion, and community – disciplines ranging from psychology, sociology, and anthropology to history, art history, philosophy, literary criticism, and political science – fuel general, as well as scholarly, interest in the world's religions.

Religions is inviting innovative and comparative contributions. Please consider Religions as an exceptional, exciting enterprise ready to reward your trust, attention, and participation.
