

Advanced Artificial Intelligence and Deep Learning for Remote Sensing

Guest Editor:

Dr. Gwanggil Jeon

Department of Embedded
Systems Engineering, Incheon
National University, 119
Academy-ro, Yeonsu-gu, Incheon
22012, Republic of Korea

Deadline for manuscript
submissions:

closed (30 June 2021)

Message from the Guest Editor

This Special Issue aims to report the latest advances and trends concerning the advanced artificial learning and data science techniques to the remote sensing data processing issues. Papers of both theoretical and applicative nature, as well as contributions regarding new advanced artificial learning and data science techniques for the remote sensing research community are welcome. Topics of interest mainly include but are not limited to:

- Artificial intelligence and data science approach for remote sensing
- Reinforcement learning for remote sensing
- Information retrieval for remote sensing
- Big data analytics for beyond 5G
- Edge/fog computing for remote sensing
- IoT data analytics in remote sensing
- Data-driven applications in remote sensing

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
