Message from the Guest Editor

Dear Colleagues,

A unique approach to collaboration and coordination in remote sensing and earth observation was held from August 22–26 in Brisbane, Australia, by the inaugural *Advancing Earth Observation Forum* (AEO22). The Advancing Earth Observation Forum 2022 was created so that everyone can actively engage, contribute, learn, and connect with others in the Earth observation (EO) community. AEO22 is an engaging experience for individuals, businesses, organisations, and students, and aims to help us understand the Australian and global EO communities and their needs.

As part of the Forum's objectives to increase communication, collaboration, and coordination, we are opening this Special Issue in the "Ecological Remote Sensing" Section of the *Remote Sensing* Journal to enable Forum participants to submit their work for consideration as a publication in *Remote Sensing*. The submission can come from any of the Forum's presentations, talks, EO360, posters, or workshops.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
