

## Advances in Remote Sensing Systems for Disaster Management and Risk Mitigation

Guest Editors:

**Dr. Mariano Lisi**

**Dr. Katsumi Hattori**

**Dr. Nicola Genzano**

**Dr. Rossana Paciello**

**Dr. Teodosio Lacava**

Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

Focusing on EO remote sensing systems, in the present Special Issue, we welcome all publications related to the innovative use of recent technologies, sensors/data, algorithms, and strategies supporting disaster risk management in one or more phases of its cycle (including disaster preparation, response, recovery, and mitigation).

In particular, submissions are encouraged which cover a wide range of subjects related to disaster phenomena, vulnerability, and risk studies, which may include but are not limited to the following topics:

- Natural hazards (flood, fires, earthquake, volcano, drought, etc.) detection and monitoring;
- Man-made hazards (oil spills, gas flares, fracking, etc.) detection and monitoring;
- Development of multihazard systems and examples of implementation/contribution to risk reduction;
- Relevant examples on the use of optical, thermal, and synthetic aperture radar (SAR) satellite remote systems to develop early warning systems at local to global scales;

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
