

Remote Sensing in University of Warsaw: Celebrating 60th Anniversary on Remote Sensing

Guest Editor:

Dr. Bogdan Zagajewski

Department of Geoinformatics,
Cartography and Remote
Sensing, Faculty of Geography
and Regional Studies, Warsaw
University, Poland, ul.
Krakowskie Przedmieście 30, 00-
927 Warsaw, Poland

Deadline for manuscript
submissions:

closed (30 September 2023)

Message from the Guest Editor

The Special Issue aims to celebrate the contributions from University of Warsaw in remote sensing area in the past 60 years. We would like to collect a wide spectrum of the newest ideas developed by University of Warsaw staff members and our colleagues, who were our students, colleagues, friends with whom we carried out research projects, who enriched our knowledge through their constructive comments, discussions, organization of scientific meetings, and implementation of different ideas, but also pleasant conversations in which remote sensing was the key topic. At the same time, we would like to thank our teachers and older colleagues who introduced us to remote sensing, creating a place that has become part of our research and teaching passion, allowing us to find a place to fulfill our professional dreams. We would like to thank our younger colleagues, who want to spend their free time supporting us, as well.

an Open Access Journal by MDPI

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.
Geological Survey (USGS), USGS
Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and
Geographic Information Systems,
Peking University, Beijing, China

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
