Segment, Oberpfaffenhofen, D-
82234 Wessling, Germany

Deadline for manuscript
submissions:

closed (28 February 2018)

Message from the Guest Editors

Dear Colleague,

Imaging spectroscopy is increasingly finding its way into transdisciplinary research aiming to integrate state-of-the-art methods and data analysis concepts in response to today's key environmental and societal challenges. With the 10th workshop of the European Association of Remote Sensing Laboratories (EARSeL) Special Interest Group (SIG) on Imaging Spectroscopy, held at the University of Zurich (Switzerland) in April 2017, this workshop series celebrates its 20th anniversary. As a follow-up, we are calling for papers on the work presented at the 10th EARSeL SIG Imaging Spectroscopy Workshop. In addition, this Special Issue is open to everyone who is conducting research that involves imaging spectroscopy.

Specific topics include, but are not restricted to:

- advanced methods for spectroscopy calibration, data processing, and archiving
- integrated approaches in Earth System Science using spectroscopy, and
- next generation platforms and sensors

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
