Excellence, Limassol 3036,
Cyprus

Deadline for manuscript
submissions:

closed (31 October 2020)

Message from the Guest Editor

Remote Sensing, especially from satellites, is a source of invaluable data which can be used to generate synoptic information for virtually all parts of the Earth, including the Atmosphere, Land and Ocean. This Special Issue will host original research papers focusing on the exploitation of Remote Sensing from satellites, but also from various other platforms, in applications of Geoinformation. The papers' emphasis can be from a wide range of such applications. Indicatively, but not limited to, papers can focus on Atmosphere, Ocean, Coastal Waters, Agriculture, Forestry, Land Cover, Land Use, Natural Hazards, Urban and Rural Environments, Urban Planning, Public Health, Meteorology, Climate Change, Oceanography and Coupled Ocean and Atmosphere modelling, Cultural Heritage and Archaeological Reconstruction, Military, Environmental Modeling and Analysis, Biodiversity Conservation, Transport including Maritime and Aviation, Transportation and Infrastructure, Mineral Exploration, Erosion, Hydrology etc.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
