

Special Issue

Advances in Hyperspectral Data Processing

Message from the Guest Editors

The IEEE 13th Workshop on Hyperspectral Image and Signal Processing: Evolution in Remote Sensing (WHISPERS 2023) is scheduled to take place from 31 October to 2 November 2023. WHISPERS is a significant scientific and technical event within the realm of remote sensing and is organized by the IEEE Geoscience and Remote Sensing Society (GRSS).

In conjunction with the conference, a Special Issue of MDPI Remote Sensing has been planned, which will be open to authors presenting papers at the conference. It is important to note that papers submitted for this Special Issue should not be identical to the papers presented at the WHISPERS conference. Instead, authors are encouraged to provide longer papers, typically 2 to 3 times longer, offering a more comprehensive presentation of their work, enhanced techniques and methodologies, additional datasets, and expanded experimental sections. Authors are also asked to specify the corresponding paper number for WHISPERS 2023 in their cover letter. Failing to provide this information will result in the paper being considered as a regular submission.

Guest Editors

Dr. Konstantinos Karantzalos

Prof. Dr. Danfeng Hong

Dr. Behnood Rasti

Sindy Sterckx

Deadline for manuscript submissions

closed (30 July 2024)

About the Journal

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
