Special Issue

Selected Papers from the XXI Brazilian Remote Sensing Symposium—SBSR 2025

Message from the Guest Editors

The XXI Brazilian Remote Sensing Symposium (SBSR 2025) is being organized with the primary objective of providing a forum for the remote sensing and geoinformatic communities to present and discuss their work. Over its past 20 editions, the SBSR has consistently drawn academic and business professionals from Brazil and other countries, providing a platform to share and discuss the forefront of remote sensing, including recent research, technological innovations, pedagogical approaches, and policy developments, Leveraging SBSR 2025, this Special Issue will publish significantly enhanced versions of selected papers. Submissions must demonstrate substantial extensions beyond the conference proceedings, featuring expanded methodologies, datasets, and comparative analyses. An expedited peer review process will ensure timely publication.

Guest Editors

Dr. Luiz E. O. C. Aragao

Dr. Yosio Edemir Shimabukuro

Dr. Marcos Adami

Dr. Lubia Vinhas

Deadline for manuscript submissions

20 August 2025

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peerreview process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend Remote Sensing for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
