

Special Issue

Implementation of UAV Systems for Cultural Heritage

Message from the Guest Editors

The present Special Issue will cover the latest advances in cultural heritage documentation, including the diagnosis of these structures, by means of the use of drones. Rather than another 3D reconstruction contribution, this Special Issue seeks high-quality papers that explore all the potentialities offered by these platforms and the latest advances in data acquisition, positioning, and sensor hybridization applied to the inspection of cultural heritage sites and objects. We wish to invite you to contribute by submitting articles concerning your recent research, experimental work, reviews, and/or case studies related to drone inspection in cultural heritage

Guest Editors

Dr. Luis Javier Sánchez Aparicio

Prof. Dr. Efstratios Stylianidis

Prof. Dr. Serafin López-Cuervo Medina

Dr. Tomas Ramón Herrero-Tejedor

Dr. Julian Aguirre de Mata

About the Journal

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
