

## Special Issue

# Value and Potential of Remote Sensing Data for Food, Energy, and Water Nexus

### Message from the Guest Editors

The objective of the Special Issue is to showcase the state-of-the-art in utilizing remote sensing data for food–energy–water (FEW) nexus studies in different sectors (e.g., agriculture, water supply, energy) and different geographic regions. Manuscripts for this issue should fulfil the following criteria:

- Research encompassing all three components of the nexus are highly encouraged; however, studies focusing on two components of the nexus are also welcome.
- Research should apply remote sensing data to address at least one of the components of the nexus.
- Innovative ways of utilizing remote sensing data in the study of the nexus is highly encouraged.

---

### Guest Editors

Prof. Dr. Mekonnen Gebremichael

Department of Civil and Environmental Engineering, University of California, Los Angeles, Los Angeles, CA 90095, USA

Dr. Ruopu Li

Department of Geography and Environmental Resources, Southern Illinois University, Carbondale, IL 62901, USA

---

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
