

## Special Issue

# Hyperspectral Imaging and Applications

### Message from the Guest Editors

Due to advent of sensor technology, hyperspectral imaging has become an emerging technology in remote sensing. Many problems, which cannot be resolved by multispectral imaging, can now be solved by hyperspectral imaging. The aim of this Special Issue is to develop new ideas and technologies to facilitate the utility of hyperspectral imaging and to further explore its potential in various applications. This Special Issue is three-fold, focusing on:

- developing new ideas, techniques in the following topics of interest (but not limited to them):
- anomaly detection, target detection
- application to multispectral/hyperspectral imaging
- band selection, dimensionality reduction, data compression
- compressive sensing, sparse representation, tensor decomposition
- unsupervised learning, active learning, deep learning
- algorithm design, architecture, and implementation
- applications of hyperspectral imaging in remote sensing

---

### Guest Editors

Prof. Dr. Chein-I Chang

Prof. Dr. Meiping Song

Prof. Dr. Junping Zhang

Professor Chao-Cheng Wu

## About the Journal

### Message from the Editorial Board

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
