

## Special Issue

# Multi-Dimensional Radar Sensing: Systems, Algorithms, and Applications

### Message from the Guest Editors

Papers for discussing the major challenges, latest developments, and recent advances in this area are highly welcomed.

- Multi-dimensional Radar Sensing: Advances in systems and algorithms;
- Novel applications on multi-dimensional radar sensing;
- MIMO and multistatic/distributed radar systems, schemes, and data processing techniques;
- Three-dimensional SAR imaging with artificial intelligence and machine learning-based approaches;
- Three-dimensional object detection with advanced techniques;
- Deformation monitoring, polarimetric SAR image classification;
- Object reconstruction from multidimensional radar point clouds;
- Advanced data visualization techniques of multi-dimensional radars;
- Image processing and image fusion for multi-sensor data;
- Simultaneous localization and mapping (SLAM) with multi-dimensional radars;
- Millimeter wave radar, Terahertz radar, and LIDAR techniques;
- Advances in radar system implementation including waveform design, hardware design;
- Reviews, techniques, designs or demos addressing future radar developments;
- Novel sensing or imaging techniques potential for multi-dimensional radar applications;

---

### Guest Editors

Prof. Dr. Shunjun Wei

Dr. Mou Wang

Prof. Dr. Gang Xu

## About the Journal

### Message from the Editorial Board

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

---

### Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
