

Special Issue

Selected Papers from the “International Symposium on Remote Sensing 2018”

Message from the Guest Editors

This Special Issue in *Remote Sensing* is planned in conjunction with ISRS 2018 and will include peer-reviewed feature papers presented at ISRS 2018. *Remote Sensing* is an open access journal about the science and applications of remote sensing technology, and is published online. The ISRS 2018 conference papers must be fleshed out with, not only a more detailed presentation of the research, but also additional data sets and comparisons in an enhanced experimental section so that it can be published in *Remote Sensing*. In the cover letter, authors should provide the corresponding paper number of ISRS 2018. If this information is not provided, the paper will not be considered as a Special Issue paper.

Guest Editors

Prof. Dr. Hyung-Sup Jung

Dr. Joo-Hyung Ryu

Prof. Dr. Sang-Eun Park

Prof. Dr. Hoonyol Lee

Prof. Dr. No-Wook Park

Deadline for manuscript submissions

closed (31 October 2018)

About the Journal

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
