

Special Issue

Monitoring and Modelling of Geological Disasters Based on InSAR Observations: 3rd Edition

Message from the Guest Editors

In our first two Special Issues, opened from 2021 to 2023, we published 28 state-of-the-art research articles covering diverse topics in InSAR and geological disasters

(https://www.mdpi.com/journal/remotesensing/special_issues/InSAR_Geological_Disasters; https://www.mdpi.com/journal/remotesensing/special_issues/ES569JPZ29

). These excellent reports significantly contribute to further developments in the monitoring and modeling of geological disasters using InSAR techniques.

Meanwhile, an increasing number of scholars are expressing their willingness to submit and publish their research output on this topic. Therefore, we are launching a third edition of this Special Issue.

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
