

Special Issue

New Advances in Laser Remote Sensing in China

Message from the Guest Editors

Recently, the field of laser remote sensing has rapidly expanded in China, and has seen the emergence of new principles and technologies. To capture, consolidate, promote, and propagate the very latest creative ideas and practices around the new theories, mechanism exploration, methodology development, and application extension in China, this Special Issue attempts to document these revolutionary developments and innovative applications. Well-prepared, unpublished papers that address interesting topics involving the biosphere, atmosphere, hydrosphere, and geosphere, with use of laser remote sensing data from any source (e.g., satellite, airborne, drones, and field) are cordially solicited. Note that this Special Issue will go along with the Chinese Graduate Conference on Laser Remote Sensing Frontiers scheduled for December, 2019, and thus, the first author of any submitted paper for consideration must be a graduate student studying in China.

Guest Editors

Res. Prof. Dr. Yi Lin

Institute of Remote Sensing and GIS, School of Earth and Space Sciences, Peking University, Beijing, China

Dr. Craig Glennie

Civil & Environmental Engineering, University of Houston, Houston, TX 77004, USA

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
