

## Special Issue

# Advanced Machine Learning and Deep Learning Approaches for Remote Sensing III

### Message from the Guest Editor

This Special Issue is the third edition of “Advanced Machine Learning for Time Series Remote Sensing Data Analysis”. In this third edition, our new Special Issue aims to introduce the latest advances and trends concerning advanced machine learning and deep learning techniques in relation to remote sensing data-processing issues. Papers of both theoretical and applicative nature, as well as contributions regarding new advanced artificial learning and data science techniques for the remote sensing research community, are welcome. Both original research articles and review articles are welcome for submission. This Special Issue is the third edition of the following Special Issues: “Advanced Machine Learning and Deep Learning Approaches for Remote Sensing and Advanced Machine Learning and Deep Learning Approaches for Remote Sensing II”.

## About the Journal

### Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
