

Special Issue

Point Cloud Processing and Analysis in Remote Sensing

Message from the Guest Editors

This *Remote Sensing* Special Issue is meant to support the aforementioned scope by collecting and publishing research and review papers on, but not limited to, the following topics:

- Data models and compression for huge dataset storage
- Multiple sources point cloud registration and fusion
- Out-of-core processing and visualization of large datasets
- Multitemporal analysis of point cloud data
- New approaches and methodologies for point cloud based semantics.
- Environment change detection based on point clouds.
- Multispectral point clouds acquisition and processing.
- Remote Sensing applications of 3D modeling
- Forest and asset inventory based on point clouds
- Performance evaluation of point cloud processing and analysis methods.

We look forward to receiving your submissions in this challenging area.

Guest Editors

Dr. Joaquín Martínez-Sánchez

Applied Geotechnologies Research Group, Mining and Energy School, Maxwell AV., 36310 Vigo, Spain

Prof. Dr. Higinio González-Jorge

Aerolab, Institute of Physics, Computer and Aerospace Science, Universidade de Vigo, Campus As Lagoas, 32004 Ourense, Spain

Deadline for manuscript submissions

closed (30 June 2020)

About the Journal

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
