

Special Issue

Application of UAV Images in Precision Agriculture

Message from the Guest Editors

Smart technologies, such as unmanned aerial vehicles (UAVs), remote sensing, artificial intelligence, machine learning, autonomous robotics, and Internet of Things, have become an integral part of precision agriculture and provide accessible, data-driven solutions for climate-resilient agricultural productivity. Quality data transformed to a useful format are significant to sustainable crop and animal management, used to increase productivity, environmental health, and the development of natural resources. This Special Issue of *Remote Sensing* focuses on the “Application of UAV Images in Precision Agriculture” to deal with broad aspects of timely data collection and utilization for resilient precision farming.

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
