

Special Issue

From Observations to End-User Engagement: Operational Applications of Remote Sensing to Inland and Coastal Waters

Message from the Guest Editors

This Special Issue will answer vital questions on the added values of observation and end-user engagement.

1. Observation 1) What are the recent advances in remote sensing applications to inland and coastal waters?
 - Technology: new sensors and sensing techniques
 - Techniques for triple sensors collocation (onsite biophysical sensors + radiance sensors + satellites) addressing spatial and temporal mismatches and uncertainty
 - Citizen and data science
 - Predictions and early warning systems
 - Effect of climate change and climate change projections
2. End-user engagement 1) What are the users' requirements for better and tailored services?
 - Users' requirements from different perspectives: instrumentation, application, and/or accuracy
 - Sustainability of the users' engagement and enhancing the uptake of remote sensing services

Guest Editors

Dr. Mhd. Suhyb Salama

Faculty of Geo-Information Science and Earth Observation, University of Twente, Hengelosestraat 99, 7514 AE Enschede, The Netherlands

Dr. Steef Peters

WaterInsight, Water Insight, Marijkeweg 22, 6709 PG Wageningen, The Netherlands

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
