

Special Issue

Remote Sensing of Low-Level Liquid Water Clouds and Fog

Message from the Guest Editor

Low-level liquid-water clouds, among them, fog as a special case, have received particular attention in recent research projects. Their role in the climate system, as well as the direct impacts of fog on activities at the Earth surface, make them worthwhile research subjects. For this Special Issue, we invite contributions documenting recent studies on remote sensing of these clouds. In particular:

- Satellite-based techniques and evaluation thereof
- Ground-based remote sensing techniques
- Application of remote-sensing products for the study of fog and low-level liquid-water cloud dynamics

Guest Editor

Prof. Dr. Jan Cermak

Institute of Meteorology and Climate Research, Karlsruhe Institute of Technology (KIT), Hermann-von-Helmholtz-Platz 1, 76344 Eggenstein-Leopoldshafen, Germany

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
